

June 15, 2020

Hello ASRC Members! We miss you all dearly and hope you are all healthy and safe. As our community begins a slow return to life as we knew it, we want to update you on how our organization needs to maintain fidelity to the Governor's Executive Orders related to distancing and capacity requirements.

As you may know, last week, Gov. Whitmer announced new guidelines for gatherings as they relate to recreational facilities like ours. That guideline states that organizations like ours must adhere to keeping distances of 6 feet between participants and must also not exceed 50% of normal capacity. Given these guidelines, we will not be hosting classes or socials for the remainder of June at the ASRC. We expect this to last into the month of July, but will keep you posted on any changes.

With regard to Life Skills Classes that were postponed from March...we will be contacting those families who were enrolled about potential reschedule dates for August (dependent on guidelines at that time) in the very near future.

It is our hope to welcome everyone back in a manner that is safe for our participants and staff members. In the meantime, know that we miss you and look forward to time together very soon!
